

AMC Partners In Practice
The Institute for Postgraduate Education
RACE & NY STATE CE APPROVED

“Canine Hematology” | Sunday, January 22, 2017, 9:00am-3:00pm | Animal Medical Center

Speakers:

- **Urs Giger, Prof. Dr. med. vet., MS, FVH**, Diplomate ACVIM & ECVIM (Internal Medicine), Diplomate ECVCP (Clinical Pathology), University of Pennsylvania
- **Dana LeVine DVM, PhD**, Diplomate ACVIM (Small Animal Internal Medicine), Iowa State University
- **Ann Hohenhaus, DVM**, Diplomate ACVIM (Oncology and Small Animal Internal Medicine), Animal Medical Center

Topics:

The first Partners In Practice for 2017 will feature three experts in canine hematology discussing current trends and treatments for immune mediated hemolytic anemia and immune mediated thrombocytopenia. Following a case-based introduction to the controversies surrounding treatment of immune mediated hematologic disorders, Dr. Urs Giger will outline the optimal diagnostic approach for this hemolytic anemia. The always confusing and frequently misused immunosuppressive agents will be highlighted in the second morning session. Implementation of blood typing and crossmatching in clinical practice will complete the morning’s programs. After lunch, Dr. Dana LeVine will provide a personalized approach to therapy of ITP and help optimize attendee’s ability to treat this disease.

Schedule:

9:00-9:30 am	Welcome and Case Presentation	Ann Hohenhaus
9:30-10:30 am	Is it immune-mediated? Diagnostic approach to IMHA and other hemolytic anemias	Urs Giger
10:30-11:30 am	How I treat IMHA: A review of immunosuppressive agents and anticoagulant therapies	Dana LeVine
11:30 am-12:30 pm	Are you my type? Matching patients with donors and transfusion reactions	Urs Giger
12:30-1:30 pm	Lunch – 4 th floor cafeteria	
1:30-2:30 pm	An individualized approach to ITP management	Dana LeVine
2:30-3:00 pm	Case presentation outcome, Program evaluations, Wrap-up	Ann Hohenhaus
