NYC's Animal Medical Center Appoints Meredith Von Roedern, DVM, DACVECC, as Staff Hospitalist

(New York, N.Y. – August 5, 2021) The Animal Medical Center (AMC), the world's largest non-profit animal hospital, today announced the appointment of Meredith von Roedern, DVM, DACVECC, as Staff Hospitalist. Dr. von Roedern, a board-certified specialist in Emergency and Critical Care, will oversee the management of Internal Medicine patients while hospitalized, ensuring coordinated care across services. Dr. von Roedern will also contribute to AMC's education mission through the teaching of interns and residents. While common in human medicine, a hospitalist is an innovative position in the veterinary field.

Prior to joining AMC, Dr. von Roedern served as an Emergency and Critical Care Specialist at Long Island Veterinary Specialists. She completed a Rotating Internship in Small Animal Medicine and Surgery, a Specialty Internship in Small Animal Emergency and Critical Care, and a Residency in Small Animal Medicine Emergency and Critical Care at AMC. She received board certification from the American College of Veterinary Emergency and Critical Care.

Dr. von Roedern has authored several publications, delivered continuing education-approved presentations, and was the recipient of the prestigious American College of Veterinary Internal Medicine (ACVIM) Award of Clinical Excellence.

"I'm pleased to welcome Dr. von Roedern back to the AMC family. Her unique skill set of clinical expertise and managerial excellence will strengthen our goal of providing the highest quality of compassionate medical care to our patients," said Kathryn Coyne, President and Chief Executive Officer at AMC. "I am confident Dr. von Roedern will bring the same commitment and vitality as an AMC Staff Doctor that she did as an AMC intern and resident."

"I'm very excited to be back at the Animal Medical Center and look forward to working with my colleagues, across multiple specialties and services, and to provide the highest standard of patient care with optimal outcomes," said Dr. von Roedern.

About Animal Medical Center

The Animal Medical Center (AMC) is the world's largest non-profit animal hospital with 100+ veterinarians providing the highest quality medical care across more than 20 specialties and services, 24 hours a day, 7 days a week. Our mission to provide the best in care, research, and education has been the foundation of our work for over a century. Learn more at: www.amcny.org/giftoflove
